AVerTV HD Express

I ♥ TV on My PC

AVerTV HD Express has advanced demodulator to support you to watch and record H.264 and MPEG-2 DVB-T programs up to 720p/1080i resolution on laptop. Enjoy the exquisite picture quality of HDTV is not a privilege of TV users anymore. As well, you can pause, rewind and fast-forward live TV programs, and arrange your own recording schedule and even record programs directly into iPod or PSP format to make the recordings on-the-go.

The compact design and the supplied stabilizer make AVerTV HD Express perfect for modern laptop with 34mm and 54mm slot. Without protrusion of the unit outside the laptop, the accessibility of adjacent port is completely remained. AVerTV HD Express is equipped with built-in remote sensor to complete the convenience of mobility.

After AVerTV HD Express is inserted, it becomes invisible and turns your laptop into a mobile TV. The slim ExpressCard equips laptop with much more convenient and smarter functions to carry out modern TV viewing experience. Of course, it is ready for Windows 7.

At a Glance
